Get to Know ABIWorld

Up-to-Date Bankruptcy Code, Rules at Your Fingertips with Further Enhancements Coming Soon

Did you know that ABI has the most up-to-date version of the Bankruptcy Code and the Federal Rules of Bankruptcy Procedure online? You can access the Code and Rules by clicking the appropriate buttons on the right side of our homepage at www.abiworld.org. ABI has enabled a Google search engine on both sites so you can search section numbers, rule numbers and keywords or phrases to make your research easier. You can also cut and paste the text directly from the site into your pleadings.

ABI is in the process of further enhancing the tools by adding a bookmark and notes feature. This will enable you to bookmark the sections or rules you use the most and add your own personal notes.

Also coming soon, ABI will be partnering with LexisNexis® to provide links, by Code section or Rule number, to relevant cases. You will be able to search by Code section or Rule number for all cases in your circuit, any other circuit or any combination of circuits, all free for ABI members. The linked cases will be those that are summarized weekly in the Collier Bankruptcy Case Update, which is posted at www.abiworld.org under the publications tab (for further information, see Get to Know ABIWorld in the March issue of the *ABI Journal*).

Last but not least, ABI will soon offer an application to have the Code and Rules on your iPhone or Blackberry. Access the information you need on demand everywhere you go, whether it be the courtroom, in a taxi, at home or in an airport! ■
